SINGLE-USER COMMERCIAL LICENSE

Permission to use the kit

License holder

One purchase licenses one individual user. A business may buy a seat for a named employee. Additional people who edit or reuse the source template need their own seat. The license is worldwide, non-exclusive and perpetual for the supplied version, subject to these terms.

Permitted uses

Create unlimited personal, academic and commercial end presentations. Customize text, colors, charts, tables and diagrams. Present publicly, share PDF or rendered exports, and deliver a completed customized presentation to a client. A client may use that completed presentation but does not receive a separate reusable template license.

Source files and redistribution

Do not sell, share, sublicense or redistribute the template, a lightly modified template, extracted layouts, or reusable source components. Do not publish the source files in a template library, editable shared resource, stock marketplace, PLR/MRR bundle or competing product. A finished presentation must contain substantial project content rather than only renamed placeholders.

SINGLE-USER COMMERCIAL LICENSE

Responsibilities and support

Your own content

You are responsible for the data, screenshots, logos, claims and other content you add. The template does not grant rights to third-party material. Font files are not included. Use properly licensed fonts available on your device.

What the purchase covers

The purchase covers the supplied digital files for version 1.0. It does not include software, custom design, project research, product implementation, future versions or a guaranteed update/support period. No specific commercial, academic or technical outcome is promised.

File problems and statutory rights

For missing, corrupt or materially misdescribed files, contact fbjz549@outlook.com with your order reference. The seller will review the issue and arrange a corrected file or an appropriate remedy. Applicable mandatory consumer rights and checkout/platform rules remain unaffected. This license does not impose a blanket no-refund rule.

Contact and version

549 Studio is an individual creator project based in China. Contact: fbjz549@outlook.com. License version 1.0, issued 8 November 2026. No attribution to 549 Studio is required in your finished presentations.
